

We find creative solutions to everyday issues and assist with life's transitions.

If you are:

- Overwhelmed with caregiving and trying to balance caregiving, work and other family demands.
- Not getting the assistance you feel you need to live safely and well at home.
- Spending increased amounts of time and care and are worrying about your aging parents.
- A caregiver responsible for the care of an elderly person and not sure what services they need or will need in the future.

Then it is the right time to contact us!

Elder Caring Inc. is a member of The National Association of Professional Geriatric Care Managers

Let's Get Started

Elder Caring Inc.

Who We Are

Elder Caring Inc. is a geriatric care management company working with older individuals and their families. We assist families dealing with senior care issues through education and service delivery. We are a team of experts in Social Work, Occupational Therapy and other allied health fields. We have years of experience working with the elderly, the differently-abled and their families.

Our Mission

We ensure our clients are maintaining a high quality of life while providing support and assistance to their caregivers. We believe that every family is unique. Individual needs and desires are an important part of the planning process.

How Do We Work?

The first step is to meet with the client and those responsible for his/her care. Consultations take place wherever it is convenient to meet. We identify areas of need and solutions.

A Geriatric Care Manager Can

- Assess the older person's living needs
- Develop a Plan of Care based on our thorough in home assessment
- Evaluate the best options for living arrangements when alternate accommodation is needed
- Meet and communicate with family and private caregivers to provide support and direction
- Coordinate care and identify the necessary team members
- Provide ongoing Wellness Monitoring to ensure client wellbeing

How Do I Benefit From Using A Geriatric Care Manager?

- We help you make good decisions by providing options and resources. We provide clarity in difficult situations.
- Gain a better understanding of private and public resource options, so you can make an informed choice.
- Have your own expert to help navigate the health care system.
- Access a central point of contact and support to the family caregivers.
- We know what to do. We have worked with hundreds of families - saving you time, money and worry.
